

Declaration of Conformity with the Substance-Related Requirements of Regulation (EU) 2025/40 (PPWR) as Manufacturer

Declaration of Compliance with the Requirements of Article 5 of Regulation (EU) 2025/40 on Packaging and Packaging Waste (Packaging and Packaging Waste Regulation – PPWR)

We hereby declare that the transport packaging first placed on the market by us has been assessed for compliance with the applicable requirements of Article 5 of Regulation (EU) 2025/40 on the basis of the conformity declarations and product information provided to us by our upstream suppliers.

The assessment is based in particular on the declarations provided by our suppliers for:

- Transport packaging made of solid board or corrugated board manufactured from recycled and virgin-fibre paper
- Polyethylene bags and films in various sizes

According to the supplier declarations available to us:

- The sum of the concentrations of lead, cadmium, mercury and hexavalent chromium does not exceed the limit of 100 mg/kg specified in Article 5(4) PPWR.
- According to the manufacturers, the PFAS limit values specified in Article 5(5) PPWR are complied with. Furthermore, according to our upstream suppliers, no PFAS are intentionally added to the packaging materials used. However, due to the widespread presence of PFAS in the environment, unintentional trace contamination cannot be completely excluded.
- According to the respective manufacturers, the packaging materials used comply with the requirements of Regulation (EC) No 1907/2006 (REACH), including the information requirements concerning substances of very high concern (SVHC).

This declaration relates exclusively to the substance-related requirements specified above and applies solely to the transport packaging first placed on the market by Schneiderfilz Schneider GmbH & Co. KG in the respective specified material combinations. Changes to the materials used, changes to the applicable legal requirements or changes in our state of knowledge may require this declaration to be updated.
